

★ PREP MATTERS ★

FOLLOW THE STEPS FOR
“WORTH IT” RESULTS.

OLYMPIC
Part 2 of 4

The right preparation and application of **Olympic® RESCUE IT!®** is crucial in order to achieve lasting results you'll be proud to enjoy. *Use these steps in combination with the Prep Matters video series to help you through the process.*

PART 2: CLEAN THE WOOD

STEPS:

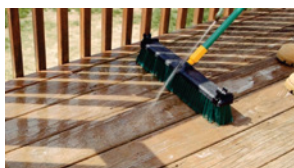

1. Cover all delicate vegetation and exposed parts of the house near your deck.

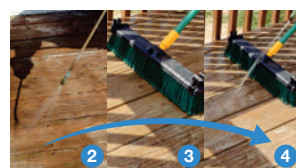

2. Apply Olympic Premium Deck Cleaner using a garden style pump sprayer.

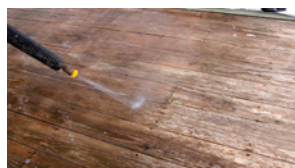

3. Use a stiff outdoor broom to scrub out extra tough stains caused by mildew, algae, and dirt.

4. Rinse well to remove any cleaner residue.

5. Repeat steps 2 through 4 as needed to get the deck clean.

6. Pressure wash using low to moderate pressure. High pressure may damage the wood surface.

7. Let wood dry completely for a minimum of 24 hours.

 Watch **Video 2: Clean the Wood** on Olympic.com for more detail.
